

**A school club wants to buy shirts for each of its 38 members. Each shirt cost \$23. About how much money will all the shirts cost.**

Answer: \$874

Step-by-step explanation: multiply 23 by 38 to get the total cost

Answer:

874

Step-by-step explanation:

23 times 38 = 874

38 members, and it costs \$23. So that's 38 shirts, costing \$23 each.

Hope this was helpful! Good luck.

What disease can be transmitted by ingesting contaminated food? Chlamydia

E. Coli

Flu

Staph

The term global performance refers to performances that feature a reciprocal exchange among traditions often resulting in cross-breeding and regenerative new forms that are tailored to broad audiences around the world. True or false?

To kill a mockingbird was published in 1961. Why do you think Harper lee felt the need to write it. Fifty-seven years later, why should we care about this novel

A right triangle has a hypotenuse of 70 feet and a leg of 35 feet. What is the length of the other leg?

A baseball player has 546 plate appearances in his first year, 627 plate appearances in his second year, and 712 plate appearances in his third year. How many plate appearances has the player had in three years??

Consider a regular pyramid where  $p$  is the perimeter of the base,  $s$  is the slant height,  $ba$  is the base area, and  $la$  is the lateral area. what is a valid formula for the surface area? check all that apply

A case of Mountain Dew (24 cans) cost \$7.68. What is the unit price?

Does the size of the sample of uranium-238 affect its half-life

Emilio has taught himself to savor each bite of his meals. He closes his eyes, focuses intensely on the flavors of his food, and maximizes his enjoyment of every bite. His ability to focus intently on the sensation and perception of taste is similar to Wilhelm Wundt's procedure of \_\_\_\_\_. a. Sublimation

b. Projection

c. Introspection

d. Empiricism

Tondre Inc. has provided the following data for the month of July: Direct materials \$34,000 Direct labor cost \$52,000 Manufacturing overhead cost incurred \$72,000 Manufacturing overhead cost applied to Work in Process \$74,000 In addition, the beginning balance of work in process inventory (WIP) is \$30,000 and the ending balance of WIP is \$20,000.
